AHC30910 Certificate III in Landscape Construction

Why do the course?

The Certificate III in Landscape Construction underpins a range of work functions and job roles within the landscape industry. Landscapers construct landscape gardens or renovate existing gardens. They may build and maintain structures, landscaping foundations, or vegetation. This qualification provides a general vocational outcome in landscape construction. The landscaping industry expects this qualification to be achieved to meet job outcomes at this level.

Successful candidates will receive national recognition with their AHC30910 Certificate III in Landscape Construction from NorthEd International College.

Course location and duration

Students will study at our Mildura Campus.
The Duration of the course is 40 Weeks, including 4 weeks holidays.

Typical course structure and assessment

Course consists of 15 units (12 core and 3 electives). Assessment in the course includes practical activities, written questions, projects and observations.

Recognition of Prior Learning (RPL)

RPL recognises the skills you have gained from other courses such as life and work experiences and training provided in your workplace. The RPL process measures your skills against the outcomes of the course in which you are going to enrol. It also acknowledges that you may already have more than the required level of skills but no formal accreditation of them in some units of the course. This process enables us to identify gaps in your skills and deliver training where required to meet industry standards.

Cost of the course?

Application Fee: $200 AUD (Non Refundable)
Material Fees: $1,000 AUD
Per Semester: $5,500 AUD (2 Semesters)
Total Course Costs $12,200 AUD

Deposit for Course: $1,700 AUD (Non Refundable)
Method of Payment: Direct Debit or Credit Card
Course: AHC30910 Certificate III in Landscape Construction

15 Units that you can choose include:

12 Core Units:

AHCOHS301A Contribute to OHS processes
AHCLSC301A Set out site for construction works
