AHC31110 Certificate III Production Nursery

Why do the course?
The Certificate III in Production Nursery enables you to develop your skills and knowledge in areas such as plant recognition, plant nutrition, propagation techniques and the recognition and management of weeds, pests, diseases and disorders.

This qualification provides a general vocational outcome in production nursery. The course is supported by the Nursery and Garden Industry of Victoria and the industry and it is expected that you have this qualification to meet job requirements at this level.

Successful candidates will receive national recognition with their AHC31110 Certificate III in Production Nursery from NorthEd International College.

Course location and duration
International Students will study at our Mildura Campus.
The Duration of the course is 40 Weeks, including 4 weeks’ holidays

Recognition of Prior Learning (RPL)
RPL recognises the skills you have gained from other courses such as life and work experiences and training provided in your workplace. The RPL process measures your skills against the outcomes of the course in which you are going to enrol. It also acknowledges that you may already have more than the required level of skills but no formal accreditation of them in some units of the course. This process enables us to identify gaps in your skills and deliver training where required to meet industry standards.

Cost of the course?
Application Fee: $200 AUD (Non Refundable)
Material Fees: $1,000 AUD
Per Semester: $5,500 AUD (2 Semesters)
Total Course Costs $12,200 AUD

Deposit for Course: $1,700 AUD (Non Refundable)
Method of Payment: Direct Debit or Credit Card
