AHC40610 Certificate IV in Production Nursery

Why do the course?
The Certificate IV in Production Nursery allows individuals to develop post-trade skills and knowledge to become specialists within the production nursery industry. This course is supported by the Nursery and Garden Industry of Victoria and the industry expects this qualification to be achieved to meet job outcomes at this level. Successful candidates will receive national recognition with their AHC40610 Certificate IV in Production Nursery from NorthEd International College.

Course location and duration
Students will study at our Mildura Campus. The Duration of the course is 40 Weeks, including 4 weeks holidays.

Recognition of Prior Learning (RPL)
RPL recognises the skills you have gained from other courses such as life and work experiences and training provided in your workplace. The RPL process measures your skills against the outcomes of the course in which you are going to enrol. It also acknowledges that you may already have more than the required level of skills but no formal accreditation of them in some units of the course. This process enables us to identify gaps in your skills and deliver training where required to meet industry standards.
